Principais competências

Java
Python
Flask

Languages

English (Professional Working)

Certifications

Crie APIs REST com Python e Django REST Framework: Essencial
Data Science: Visualização de Dados com Python
Curso de Python 3 - Básico Ao Avançado (Com Projetos Reais)
Reconhecimento Facial com Java

Alexsander Vieira Junior

Co-CTO in CEOTECH | University Professor in SENAC
São José

Resumo

Data Scientist familiar with gathering, cleaning and organizing data for use by technical and non-technical personnel. Advanced understanding of statistical, algebraic and other analytical techniques. Highly organized, motivated and diligent with significant background in data collect. Gifted Developer offering more than 5 years of experience in demanding environments focused on producing cutting-edge systems for the peoples. Skilled in directing development with creative and performance-oriented approach. Well-organized and customer-focused with proven skills in project management and team leadership. Self-directed and motivated Software Engineer experienced working effectively in dynamic environments. Fluent in Python, Java and Golang Programming languages, including Docker and Linux.

Experiência

CEOTECH

Cofundador

março de 2021 - Present (6 meses)

Florianópolis, Santa Catarina, Brasil

Senac Santa Catarina

University Professor

agosto de 2020 - Present (1 ano 1 mês)

Palhoça, Santa Catarina, Brasil

Nexxera

Analista de software sênior

novembro de 2020 - março de 2021 (5 meses)

Pedido de demissão

Neoway

Data Engineer

junho de 2019 - outubro de 2020 (1 ano 5 meses)

Collaborated with cross-functional development team members to analyze potential system solutions based on evolving client requirements.

Conducted regression testing, analyzed results and submitted observations to development team.

Wrote highly maintainable, solid code in PYTHON for data system that formed core framework and has won consistent praise from subsequent developers since initial version.

Built, tested and deployed scalable, highly available and modular software products.

Implemented innovative systems for data collection, storage and management of customer orders.

Corrected any data entry error to prevent later issues such as duplication or data degradation.

Healthchess Tecnologia LTDA

Programador Pleno

agosto de 2017 - junho de 2019 (1 ano 11 meses)

Florianópolis e Região, Brasil

Analyzed requirements and designed, developed and implemented software applications for multiple websites.

Reviewed code and debugged errors to improve performance.

Developed robust Java code for web applications.

Provided technical direction and system architecture expertise.

Researched new technologies, software packages and hardware products for use in website projects.

Employed prefabricated design patterns to shorten development times by applying existing frameworks.

Expanded development efforts to include related platforms and protocols such as SOAP, REST, and database technologies like SQL. Operated Java development tools such as PrimeFaces, Spring and Java 8.

Implemented system enhancements to propose, design and develop

solutions to fulfill requests and address problem reports.
Prepared memory management for database systems.

Formação acadêmica

Centro Universitário Municipal de São José

Tecnólogo , Análise e Desenvolvimento de Sistemas · (2016 - 2018)
